Rationale : 12th years Founding Anniversary of the National Coordinating Body of UNESCO Clubs in the Philippines (NCBUCP)

UNESCO's preamble highlights the need to build peace in the minds of women and men, because it is in the same mental faculties of people that wars begin. Apparently, peace have to be instilled in various elements of society: through an inclusive education, through a scientific discourse, through the arts and culture of nations alongside its heritage, through a functional human rights system and a full freedom of expression. The message of UNESCO "are of increasing importance today, in a globalized world where interconnectedness and diversity must serve as opportunities to build peace in the minds of men and women".

Emphasizing this message, UNESCO Clubs across the world bear that unique mandate of starting the change in the grassroots, attaining the goals one simple action at a time. Individually, UNESCO Clubs are unique in their mechanisms of delivery programs and projects. Collectively, through the National Coordinating Body of UNESCO Clubs in the Philippines, Inc. (NCBUCP), UNESCO Clubs are building and fortifying the pillars of growth and development towards a sustainable, peaceful and just society.

Program Design:

The present youth generation is confronted with unprecedented challenges brought about by health, educational, economic, environmental and social crises. In the advent of various problems concerning unemployment, violence, pollution, poverty, corruption, illiteracy, war, terrorism, and even the natural disasters, the youth of today takes the center stage of global attention as the most vulnerable sector and the prime players of positive change and sustainable development.

The United Nations Secretary-General Antonio Guterres has accentuated that young people are on the frontlines of the struggle to build a better future for all. Accordingly, the COVID-19 pandemic has

highlighted the dire need for the kind of transformational change they seek – and young people must be full partners in that effort.

The United Nations Educational Scientific and Cultural Organization (UNESCO) has not halted its diligent efforts to sustain the realization of the UN Sustainable Development Goals (SDGs) 2030. In spite of the current global crisis of the pandemic, it has been pursuing sustainable development initiatives through grassroots actions involving the youth.

In the Philippines, the National Coordinating Body of UNESCO Clubs in the Philippines, Inc. (NCBUCP, Inc.) has been working with the Filipino youth as active players in pursuing advocacy-driven endeavours in local, regional, national and even in the international scale. As it celebrates the 12th founding anniversary as the biggest and largest network of UNESCO Clubs of youth advocates in the country, NCBUCP sustains the annual gathering of youth advocates and young leaders through the International Assembly of Youth for UNESCO (Y4U) on December 9-11, 2022 with the theme: *"SDG 14 -Harnessing the Power of Youth as a Global Citizen to Heal our Ocean"*

The theme highlights the anchors of leadership that UNESCO Club leaders must possess in their way to make themselves adaptable, resilient, equipped and responsive to the demands and challenges in the new normal and beyond. Y4U 2021 will ignite interests of the youth leaders and youth advocates towards service by keeping them abreast with the current challenges in the global and local context, and casting inspiration from the works and accomplishments of UNESCO clubs and advocates. They will also be engaged in policy development in the convergence sessions to craft national action plans on Education, Science and Technology, Culture, Social and Human Sciences, and Information & Communication. Finally, Y4U participants will also be empowered to strengthen camaraderie and collaboration with the rest of the UNESCO clubs through the various academic and non-academic competitions such as National Debate Cup, Online Quiz Bowl, Spoken Word, Poster Making and Essay Writing

Objectives:

The conference will bring together 350 UNESCO Clubs and potential UNESCO Clubs in the country to attain the following objectives:

1. be an avenue for youth mentoring and dialogue and peer collaborations within the context of UNESCO's mandate and the Sustainable Development Goal, 14 on "Life below Water"
2. draft a key document that embodies the ideas and action plans of the general assembly and the participants which, when adopted, will be submitted to the National Commission for UNESCO
3. strengthen the UNESCO Clubs intrinsic mandate of being grassroots change makers, empowering them to carry on the challenge of localizing efforts anchored on regional, national and international declarations
